

Jojo

Sit and stand table with H-base

Design — Iiro Viljanen

The height-adjustable Jojo desk increases activity and wellbeing at work. Jojo with H-base has been designed for the changing needs of learning environments in particular.

The compact Jojo desk is easy to move and highly functional, even in small spaces, which increases flexibility in various types of spaces. Its easy-to-use, effortless and stepless height adjustment enables users of various sizes and ages to work actively and ergonomically – sitting down or standing up.

The Jojo desk is also available with an X-shaped base – the desktop sizes vary depending on the base.
